

**FARMGATE**  
STOCKFEEDS

# BEEF FEED RANGE

Farmgate Stockfeeds beef range is specially formulated to supply energy and protein to cattle when pasture production does not meet the requirements for the targeted weight gain. Adding a high quality grain ration will help improve feed conversion efficiency allowing cattle producers to market animals earlier.

Ingredients are selected from cereal grains (wheat, barley, corn) and legumes (canola meal, lupins) rumen buffers, urea, salt, lime, monensin, magnesium oxide & Farmgate macro-micro mineral pellet, with no need to add bulky fillers

## BEEF SHOW FINISHER

A high energy, high protein crushed grain mix of cereal grains, canola meal and lupins. Including a full macro and micro mineral package, rumen buffers and modifiers.

Farmgate Beef Show Finisher is formulated for preparing and maintaining show/sale bulls, steers & heifers.

Contains Orego-Stim®, a 100% natural essential oil based feed additive that maximizes intestinal health and improves palatability.

17% CP, 12.2 ME, available in bulka bags or bulk loads

Proprietors: Mathew & Tammi Logan

514 Timboon-Terang Road, Ecklin 3265. Phone: 5591 0344

Hannah Torney (Technical Advisor): 0438 827 727

# BEEF FINISHER

A high energy, barley based crushed grain mix which includes canola meal, macro minerals and monensin for feed efficiency and bloat control. Contains molasses for palatability.

Farmgate Beef Finisher is specially formulated to improve cover on animals close to sale

14.5% CP, 12 ME, available in bulka bags or bulk loads.

# BEEF GROWER

A balanced ration consisting of cereal grains & canola meal, including a macro mineral package, buffers & monensin.

Farmgate Beef Grower is formulated for growing young cattle and finishing animals when pasture is not available.

16.5% CP, 12 ME, available in bulka bags or bulk loads

Proprietors: Mathew & Tammi Logan
